Work experience

Full stack developer (Freelance)

Remote | 08/2025 - 05/2026

Achievements/Tasks

- **Troubleshot and resolved issues in an existing full-stack application, improved performance, refactored code, and prepared the product for a stable launch.**
- **Reviewed an existing multi-platform application, addressed launch-blocking issues, evaluated native packaging options, and improved reliability across mobile and desktop environments.**
- **Maintained and optimized an existing Web3 product across frontend, backend, and blockchain integrations, resolving bugs and improving API performance and transaction handling.**
- **Improved existing Node.js and TypeScript backend services, optimized REST APIs and database queries, strengthened error handling, and added automated tests.**

Education

Bachelor of Computer science

Drohobych State Pedagogical University of Ivan Franko
